

# THE Price OF WHEAT!

And the price of Dry Goods is away down, but we are eclipsing the wheat price altogether. What we should get a dollar and a half for all are selling in some cases for 35c. For instance we have elegant hats that sold for \$6.50, today we are letting them go for \$2.50. Here is another case of loss: We have 6 French costumes, the price was \$12.50, the price is \$5.50. That is the difference between what was and what is. Our Dress Department is in a terrible commotion. Every day hundreds of people are taking advantage of the great reduction. If you want a nice cape for the cool evenings, now is your time: We have 16 capes left from \$8 to \$16, you can have your choice for \$6. If you are after genuine bargains, we are the people. —Mr. and Mrs. J. A. C. Reynolds have returned to Denver, Col.

—Mrs. W. Zimmerman, of Hamilton, is the guest of E. J. Woolverton.

—W. S. Marlatt was up before Forbes, J. P., on Thursday last on complaint of G. W. Meyer for using insulting language. He was found guilty and fined \$5.00 and costs.

—Contractor Hastings, of St. Catharines, who has a contract on the other side of the river says that he can buy Tallman's pressed brick, pay freight and duty and lay them down there for less money than American brick costs. He also says that the quality is better. Some another for Canada.

—Mr. and Mrs. W. F. Lancaster, of Toronto, are here on their bridal trip.

—Wednesday was Recreation Day at the Park. In the morning the Mountain View and Grimsby foot ball teams played an exciting game. When time was called neither side had scored a goal. Play was resumed for an extra half hour but neither side scored in that time and it was declared a draw. The winners were to get a silver cup, but as it was a draw the Park Co. offered to give each a cup of lesser value if it was agreeable to both teams. The offer was accepted.

—Mr. Dochstader's large barn on Robinson road was totally destroyed by lightning last Monday. Mr. Bouck's barn, Fonthill, was also burned.

—Thos. Lynch, of South Grimsby, was in town on Wednesday.

—A. F. Hawke and wife spent a day in Toronto this week.

## The Jerseys Lead.

In the tests that have been made lately at the World's Fair between the different breeds of cattle the Jerseys lead. The Guernseys were second and the Shorthorns third. The Holsteins did not go into the contests. In a big trial lately held at Chester, England, for breeds over and under 1100 pounds the Shorthorns won in the heavy class and the Jerseys won in the light class beating all classes.

—A St. Catharines Man in Trouble

VANCOUVER, B. C., Aug. 1.—Harry Morton, formerly of St. Catharines, was primarily tried to-day before Magistrate Atkinson, of New Westminster, for assault with intent to do bodily harm on one Lewis during a lacrosse game at Westminster. Though Morton swore that he intended no injury and when the accident occurred was striking at Lewis' stick, and though evidence of threatening language before the accident was entirely wanting the magistrate committed Morton to stand his trial at the November Assizes. Lacrosse players in Victoria, Vancouver, and nearly all of them in Westminster, consider the commitment unjustifiable.

—W. S. Moor, of Wilcox, lost a very serious accident on Wednesday, Aug. 2. He was moving a building on his farm and while working around it it toppled over and fell on his legs breaking them both.

## THERE MAY BE WAR. The French Admiral Gives Notice of a Fresh Blockade.

LONDON, Aug. 1.—The Daily News says: "The latest news from Bangkok is very serious. Siam, having accepted the French terms, France's persistence in coercive measures will be equivalent to an unprovoked declaration of war, if not an open demand for the cession of Siam. The British foreign office has never been in a more delicate position than now. We have no desire to attack France, but while Lord Rosebery made up his mind from the first not to assist or encourage the Siamese, he was equally determined, with the full approval of his colleagues, to protect the commercial rights of his own countrymen. He distinctly warned France that British vessels could not be stopped under a blockade of an avowedly pacific character. It is quite impossible for Great Britain to withdraw the ships she sent to Bangkok for protective purposes. We cannot be accused of inciting public feeling against France, but moderation is one thing, weakness another."

NEW YORK, Aug. 1.—The Sun's special from London says: Inquiries after midnight at the British admiralty brought a response from the official in charge that confirmation had been received from Bangkok of the report that the French admiral had given notice of a fresh blockade to begin on Wednesday. It was added that "there is no question of British gunboats leaving Bangkok" in response to French or any other demand.

The assurance that the full recognition would be given to British rights in the disputed territory above the eighteenth parallel which was received from France Sunday night in answer to Lord Dufferin's protest against the French occupation, was believed by the British government to have secured a peaceful solution of the difficulty. This conclusion is no longer felt.

LONDON, Aug. 1.—The Standard again this morning affirms that owing to the representation made to M. Deville, the foreign minister, by Lord Dufferin, the British ambassador to France, the question of a neutral zone between the French possessions in the Siamese peninsula and British Burma and the Shan states has been settled satisfactorily, and that it has been agreed that the French blockade of the Siamese coast shall be raised immediately.

Reports of similar purport appear today in the Times and Post.

LONDON, Aug. 1.—A dispatch from Paris states that Lord Dufferin, the British ambassador to France, and M. Deville, the foreign minister, at their interview yesterday merely amplified the papers that had already been prepared for signature.

Inquiry at the foreign office elicited the information that the discussion was confined to a rough draft of a

Winona.

The Rev. C. J. Bowden, M. A., of Margate, England, who has been appointed to the office of "Evangelist" will preach at the Winona church next Sunday afternoon, the 6th inst., at 3 o'clock.

There will be an informal reception accorded Mr. Bowden, at the parsonage, Stoney Creek, Saturday evening, at 8 o'clock.

Damage by Lightning.

The severe thunder storm that passed over Grimsby on Monday did some damage. L. L. Hagar had a narrow escape from having his fine new barn destroyed. The lightning struck the barn and ran down the wind-mill shaft, splitting the floor and continuing into the basement. It fired the hay and straw on the barn floor and the manure in the cellar. Fortunately the hired man, Mr. Blaine, was in the barn and got the fire out before any serious damage was done. Blaine was stunned by the lightning, but recovered immediately on seeing the hay and straw burning.

One of the old trees in front of J. W. G. Nelles' farm house was struck by lightning and pretty well shattered. Mrs. M. Russ was shocked at the same time.

### Ingledeale Stock Farm.

Clark's Horse Review.

It has seldom been my fortune to spend a day so enjoyable among the trotters, their sires and dams, as was afforded me on July 15. Being at Hamilton I thought of a long promised visit to Ingledeale Farm, at Winona. So, suiting the action to the thought, I entered into a treaty with Frank Post, whereby I was put in possession of a conveyance, with which to reach my destination. To describe the lovely drive from the city would require columns of space. With Lake Ontario on the left and the Laurentian chain of mountains on the right, clothed in beautiful verdure, and on whose sunny slopes were hundreds of acres of fruit farms devoted principally to grape and peach growing, it was indeed a scene of pastoral beauty, calculated to inspire one with envy for the fortunate owners, and to bemoan his hard lot as a humble follower of the trotters.

Ingledeale Farm is located at Winona, about 12 miles from Hamilton. It is approached by way of a grand old avenue shaded by magnificent firs, at the end of which is a most comfortable mansion, the doors of which are always open to the wayfaring horseman. The farm contains 175 acres of pasture and fruit lands, and has an excellent half-mile track. Of its owner it is hardly necessary to speak. Jonathan Carpenter and his life partner are the ideals of a nature's nobleman and a gentlewoman of educated and cultivated mind. They have together made the breeding problem a study, and that success has been attained is not to be wondered at. Before going through the pastures I will premise by saying that Fides Stanton, the most consistent performer out this year, was bred and owned at Ingledeale, and it was from there he started on his first campaign, which has been one of extraordinary success. He won three races the first year and was placed three times, and went home with a record of 2:28, after a month's campaign in the 3:00 class. In 1892 he was sold to Thomas Barnes, of Hamilton, and won four out of six races, and was placed twice. This year he has met and defeated with ridiculous ease all the cracks down through York State to Philadelphia, and returning to Pittsburgh won the Newell House stake and a record of 2:15, beating the much-touted Favara, who was never in it. I said May 14 that he would trot to a record of 2:12 this year. I will put it now at 2:11. His breeding has been often stated, but a repetition will do no harm. He is a chestnut horse, 15.2, and was seven years old the day he won at Syracuse. His sire is Gen. Stanton, dam Capitola, by Brown Douglas, second dam Fidelia (dam of Fides 2:22), by Black Bear, son of Toronto Chief 85. He is inbred through his dam to Toronto Chief, the last of the great Royal George tribe, and, combined with the blood of Hambletonian, there can be no stouter or better breeding. He is a race horse second to none on the turf in so far as his speed will carry him, and the master and mistress of Ingledeale may well be proud of him.

After speaking of such a horse of course his dam would be the first object of interest. There she is with her suckling by Amber Stanton by her side, a handsome brown mare fourteen years old and a typical brood mare, which is proven by the quality of her produce. She has a three-year-old colt by Superior 3780, sire of Reciprocity 2:20, which has shown well with but little handling, and has the elements of a trotter.

Continuing through the brood mares the next I was shown was Nora Wilkes, by Almont Wilkes 2:18, dam Lyle, by Gen. Stanton, with her suckling foal by Superior 3780. Winona Maid is a bay mare by Windfield Scott, dam old Dell, by Tempest. Her suckling is by Amber Stanton. Fanny W. is by Almont Wilkes, dam Chestnut Hill, by

Gen. Stanton, and her foal is by Amber Stanton. Old Fan is by Black Bear and her foal is by Almont Wilkes. Baby Stanton is a grandly-formed mare and her whole quality is covered in the one word that she is a sister to Fides Stanton 2:15. Her foal is by Almont Wilkes. Dolly Stanton is also a sister to Fides Stanton, and her foal by Almont Wilkes is the best suckling I have ever seen. May C. is a three-year-old filly by Superior, dam Fanny W., by Almont Wilkes; second dam by Gen. Stanton. When she is ready to start she will show she is a race ugal. Lulu is a bay filly by Almont Wilkes, out of Lady Stanton, sister to Fides Stanton. Belle Howard is a bay mare, five years old, by Almont Wilkes, dam Chestnut Hill, by Gen. Stanton, and will be ready for the races this fall. Holy Howard is a sister to Belle and a year younger. She will be put in training. A two-year-old filly by Pogie Stanton, dam by Batterby's Royal George, is a very promising young thing. Twenty One is a bay colt by Almont Wilkes, dam by Batterby's Royal George.

With such a galaxy of brood mares, you will ask, "Is there no stallion at the head of such a harem?" There is. I will describe him. Amber Stanton 23239 is a bay horse 15-3, weighs 1,100, and was foaled in 1887. He is by Gen. Stanton, sire of nineteen in in 2:30, dam Clara P. (dam of Gen. Scott 2:20), by Clear Grit 859; second dam Jenny Jinks (dam of Amber 2:23), by Royal Revenge, son of Toronto Chief 85; third dam by Hamiltonian, by American Eclipse. He is an individual of rare merit, and his breeding is superb and is a fit mate to the brood mares on the farm. Such is Ingledeale Farm and I predict there will be some more bread winners come from there before another season is over.

### A Boy's Essay on Breathing.

A boy was recently asked to write a composition on—"Tell all you can about breathing." He said: "Breath is made of air. We breathe with our lungs, our lights, our livers and our kidneys. If it wasn't for our breath we should die when we slept. Our breath keeps the life a-going through the nose when we are asleep. Boys that stay in a room all day should not breathe. They should wait till they get out of doors. Boys in a room make bad, unwholesome air. They make carbonic oxide. Carbonic oxide is poisoner than mad dogs. A heap of soldiers was in a black hole in India, and a carbonic oxide got in that there hole and killed nearly everyone afore morning. Girls kill the breath with corsets that squeezes the diaphragm. Girls can't holler or run like boys, because their diaphragm is squeezed too much. If I was a girl I'd rather be a boy, so I can holler and run and have a great big diaphragm."

## OUR PROOF.

The public will admit that there has been much complaint regarding business being dull. In the face of all opposition and dull times, we find that our sales are ahead of last season. This surely is proof that the public know that we give excellent value for the money spent with us.

Our stock was never in better shape than at present. OXFORDS—Our stock of Oxford Shoes is probably not equalled in Canada, from a child's at 50c per pair up to a gent's at \$6, in both Tan and Black Goods.

We have just placed in stock 180 pairs of Ladies' Kid Oxford Shoes, with patent leather toe caps, at \$1.25 per pair. They are not sheepskin, but a good, honest, Dongola Kid Shoe. See them.

By all means examine our stock before making your purchases.

## A Clergyman's Story.

### A PROMINENT MINISTER RELATES HIS REMARKABLE EXPERIENCE WITH THE GRIPPE.

How He Was Affected And How He Was Cured. An Article That Every One Should Read and Remember.

From the Philadelphia Item.

Rev. Thomas L. Lewis, who resides at 2549 Neff street, and is pastor of the Richmond Baptist church, relates a very interesting account of his experience with La Grippe and how he secured relief by taking Dr. Williams' Pink Pills for Pale People. Mr. Lewis is thirty nine years old and is recognized as one of the most popular preachers of Philadelphia.

He is an alumnus of Bucknell College at Lewisburg, Pa., where he attained the degree of Master of Arts. With his other work he edits and publishes The Richmond Baptist, a monthly journal devoted to the interests of the church. He looks upon the practical side of life, both preaching and publishing, the importance of good health, and when asked to tell what Dr. Williams' Pink Pills had done for him, he went before Eugene Ziegler, a Notary Public at 2739 Neff street, and cheerfully made affidavit to the following narrative.

"I began taking Dr. Williams' Pink Pills for Pale People two weeks ago this Sunday. I had the gripe for more than two weeks. I had great trouble during that time with my eyes and head. The disease also affected my appetite and my stomach. It required great determination and effort on my part to do my work as pastor, and I did it when I should have been in bed. In a week's time the effect of the gripe were completely removed. I then continued the remedy on account of my stomach difficulty, being confident that it would remove that. I want to recommend the use of Pink Pills to all those who are affected as I have been. I believe they will build up gripe patients.

"As for myself, I cannot say too much for them. I went on the scales two weeks ago to see what I weighed, and again to-day, wearing the very same clothing. I found I had gained two pounds—a pound a week.

"On account of the sedentary habits natural to my occupation, and to some internal injuries sustained years ago, I have had a severe stomach affection, and have been troubled, beside, a great deal, with indigestion. Since taking the Pink Pills my appetite has improved, my digestion is better, and my stomach has been relieved of its pain.

"I was struck accidentally in the stomach by an iron bar and once I was kicked by a mule in the same place. It was 20 years ago when I was hurt first. Since that time I suffered much from stomach difficulties. I was treated frequently, but not cured. I feel better now than at any time since I was hurt, and I am so pleased with my improvement that I am glad to let the public know of my bettered condition. I have heard of other cures effected by the Pink Pills, but I prefer to speak only of my own case. THOS. L. LEWIS.

Sworn and subscribed before me this 29th day of April, A.D., 1893.

EUGENE ZIEGLER, Notary Public.

[seal.] The discoverer of Dr. Williams' Pink Pills for Pale People certainly deserves the highest tribute that pen can frame. His medicine has done more to alleviate

the sufferings of humanity than any medicine known to science, and his name should be handed down to future generations as the greatest servant of the present age.

Dr. Williams' Pink Pills are a perfect blood builder and nerve restorer, curing such diseases as rheumatism, neuralgia, partial paralysis, locomotor ataxia, St. Vitus' dance, nervous headache, nervous prostration and the tired feeling therefrom, the after effects of la grippe, diseases depending on humors in the blood, such as scrofula, chronic erysipelas, etc. Pink Pills give a healthy glow to pale and sallow complexions, and are a specific for the troubles peculiar to the female system, and in the cases of men they effect a radical cure in all cases arising from mental worry, overwork or excesses of any nature.

These pills are manufactured by the Dr. Williams' Medicine Company, Brockville, Ont., and Schenectady, N. Y., and are sold only in boxes bearing our trade mark and wrapper, at 50c a box, or six boxes for \$2.50. Bear in mind that Dr. Williams' Pink Pills are never sold in bulk or by the dozen or hundred, and any dealer who offers substitutes in this form is trying to defraud you and should be avoided. Dr. Williams' Pink Pills may be had of all druggists or direct by mail from Dr. Williams' Medicine Company from either address. The price at which these pills are sold make a course of treatment comparatively inexpensive as compared with other remedies or medical treatment.

Rebecca Wilkinson, of Brownsville, Ind., says: "I had been in a distressed condition for three years from Nervousness, Weakness of the Stomach, Dyspepsia and Indigestion until my health was gone. I bought one bottle of South American Nervine, which done me more good than any \$50 worth of doctoring I ever did in my life. I would advise every weakly person to use this valuable and lovely remedy; I consider it the greatest medicine in the world." A trial bottle will convince you. Warranted by M. Fitch, Grimsby.

### The H. G. & B. By-Law Carried In Saltfleet

Hamilton Spectator.

Last Wednesday the ratepayers in the northern portion of the township of Saltfleet voted on the by law granting a bonus of \$3,000 to the projected H. G. & B. electric railway. There were only two polling places, at Stony Creek and Winona, but a good deal of interest was taken by the property owners and a fairly large vote was polled. The total number of votes cast was 273, the one-third necessary to be cast being 127. Of the above number ten were tendered ballots that were not counted in the result, which was as follows:

	For.	Against.	Maj.
Stony Creek	111	43	68
Winona	95	14	81
	206	57	149

At an impromptu meeting held after the polls closed, Warden Reid presided. Speeches were delivered by Adam Rutherford, J. T. Middleton, R. R. Waddell, S. Lee, Col. Van Wagner, J. G. Jones and others. Col. Van Wagner and Mr. Lee had worked against the by-law, but they said as the people seemed to want it they would now turn in and aid it all they could.

C. J. Myles was asked this morning when the company would commence those things called active operations. "We won't do anything," said Mr.

### The Little Armchair.

Nobody sits in the little armchair; It stands in a corner dim; But a white-haired mother gazing there, And yearningly thinking of him, Sees through the dusk of the long ago The bloom of her boy's sweet face, As he rooks so merrily to and fro, With a laugh that cheers the place.

Sometimes he holds a book in his hand, Sometimes a pencil and slate, And the lesson is hard to understand, And the figures hard to mate; But she sees the nod of his father's head, So proud of the little son, And she hears the word so often said, "No fear for our little one."

They were wonderful days, the dear sweet days When a child with sunny hair Was here to scold, to kiss and to praise, At her knee in the little chair. She lost him back in the busy years When the great world caught the man And he strode away past hopes and fears To his place in the battle's van.

But now and then is a wistful dream, Like a picture out of date, She sees a head with a golden gleam Bent o'er a pencil and slate, And she lives again the happy day, The day of her young life's spring, When the small armchair stood just in the way. The centre of everything.

Geo. Bridgman was in town last week on a visit to his grand-parents, Mr. and Mrs. Geo. Brant.

A surprise party to about the number of fifty from the village and congregation of Grace church went down to Moot Settlement and presented Mrs. D. Baldwin with a handsome berry dish, mounted in silver, as a small token of their esteem and regard for her, as well as a small remuneration for her services as organist in the church, which position she held and filled acceptably for 7 or 8 years. The address was read by Mrs. E. J. Clarke and the presentation made by Mrs. Wm. Copeland. The party returned home about 12 o'clock, well pleased with their evening's outing.

On Thursday afternoon about half past two o'clock word was sent down town that M. Murgatroyd's barn was on fire. The alarm was sounded and the engine and hose carts were soon on the spot. The fire, however, had been got out of the barn, and the manure pile was the only point of danger. The boys soon had a good stream of water thrown on the fire. Everything worked well. Everybody took hold and worked with a will.

## Forty Dollars Saved the Bank.

Old-timers tell the story how T. J. Kelley, a contractor of this city and now manager of the horse market in Grand avenue, between Fifth street and Missouri avenue, by a very clever ruse, stopped a run on a bank and prevented its going to the wall way back in 1871. At that time the Kansas City Savings' Association, now the National Bank of Commerce, was located at the south-west corner of Fourth and Delaware streets. Mr. Kelley was then secretary and cashier of the Corrigan Street Railway Company and the company's account was kept at this bank.

The much despised penny was not then in general use here as now. People were ashamed to pay for any article with pennies, except, perhaps, postage stamps, and the old-fashioned "far-box" in the cars became a dumping ground for them. From \$3 to \$5 in pennies would be found in the boxes by Mr. Kelley every day. He usually dumped them in sacks and stored them in sacks and stored them away in the company's vault.

During the crisis of '71 the people very much excited and flocked to the banks in droves to withdraw their deposits. Runs were made on nearly all the banks in the city, and several were forced to suspend. One day a run was made upon the Kansas City Savings Bank, and the people were lined up waiting their turns to reach the teller, who was paying out money by the basketful, when a happy thought struck Mr. Kelley. He went to the Police Station, secured three policemen to guard his treasure, loaded eight sacks of coppers upon a wheelbarrow and took them down to the bank. The sacks had originally contained gold, and were labelled on the outside "\$5,000" in great big black letters.

Arriving at the bank, one old coloured woman, who had come to withdraw her small savings, called out:—"Why, Mistah Kelley, wha' fo' yo' put all that money in here when we a-drawin' our money out?"

Kelley replied: "That's all right. This bank isn't going to bust. I can put more money in here in one day than all you people can draw out in six months," as he trudged into the bank with the last sack.

This display of confidence on the part of the Street Railway Company had a quieting effect upon the crowd and they rapidly dwindled away.

The sacks contained just \$40, but it saved the bank.—Kansas City Journal.

Rebecca Wilkinson, of Brownsville, Ind., says: "I had been in a distressed condition for three years from Nervousness, Weakness of the Stomach, Dyspepsia and Indigestion until my health was gone. I bought one bottle of South American Nervine, which done me more good than any \$50 worth of doctoring I ever did in my life. I would advise every weakly person to use this valuable and lovely remedy; I consider it the grandest medicine in the world." A trial bottle will convince you.

present a glitter of finely varnished work, unsurpassed anywhere. The support we have received from all parts of Canada fully warrant us in saying "We have friends by the hundred", and with their support we will this coming season make a record that will even eclipse our past glorious success. All persons, except fools, have enemies. We have ours. They are the Factories, Dealers and Importers who are sore at our success and spend their time talking against our work, knowing full well that we build only first-class work and that every part is warranted to be of the best material and workmanship, and they know our prices are even better than their own. A better rig for the same money is just what tells the story. If you are in need of anything in our line come and look at our elegant display. We study to please.

## World's Fair Notes.

The decision that it is not probable to keep all the buildings of Jackson park open evenings has been reached by the council of administration and order has been issued that the public after 6 o'clock, open of them—electricity and machinery halls and the administration building—will be open every evening. In addition to these another building will be open; the agricultural hall one evening, the fine art gallery the next, transportation building the next, manufactures hall the following evening and so on.

Two influences operated to close more than half the exhibition at night. The first was that visitors seemed to lose interest in the exhibits after 6 o'clock. Almost every evening the buildings were almost deserted after that hour, the crowds gathering around the electric fountains, moving over toward the lake shore or joining the procession down Midway. The second influence was economy. It was found to be very expensive, both to exhibitors and to the exposition company, to keep all the buildings open every night.

One of the most interesting features of the transportation exhibit is the array of odd vehicles and modes of communication and transportation in all parts of the world. The oddest is the carro dos bois, or bullock cart, from Funchal, in the Madeira islands. It isn't a cart; it is a sled. They don't know anything about wheeled vehicles in the Madeira islands. This mis-named cart is a sort of old-fashioned stage coach body on runners. The springs are of modern steel. Formerly they were of leather, the body of the vehicle being swung on bug leather strips. It has an oilcloth canopy. The body is partly of cane-work and partly wood, and there is room for four persons on its red, upholstered seats. The tongue of the sled is of solid wood and half as thick as a man's body.

Next to the white buxton, the gaudiest thing on wheels in the transportation building is a Sicilian cart and the harness therefor. This cart is loaned by a gentleman who purchased it in Palermo. It is enough to make a man want to drink bromide or some other headache-mender to look at it. The cart is bad enough, but the harness is worse. It is broader in trace and band and strap than our harness. It is set in as with precious stones, but in reality it is only flaring gilt paper. There are nodding plumes for the horses' head and bells for his feet. The cart is a copy and the size of those used by contractors and foundation diggers in big cities. It is painted white, though, for a body, and there are pictures of events in the lives of the saints painted on the panels. The fellows of the wheels are cut in scallops, the spokes are carved and even the axles are striped. The whole is a symposium of every primary color. When a Sicilian in holiday dress goes into this cart he must present a nightmare of color.

## W. C. T. U. Column.

## A Quiet Wedding.

A quiet wedding took place last evening at the home of Mr. Andrew Drysdale, 6439 Yale avenue. His daughter Jennie was married to C. R. Murray, jr., of Jacksonville, Ill., in the presence of a few of the family's near friends. The ceremony was performed at 8 o'clock by Rev. W. M. Hindman, of Normal Park Presbyterian church. The young couple were unattended. The bride appeared charming in a gown of white satin trimmed with point lace, with bouquet of ornaments, and carried a costly and pure white roses. Many very well beautiful gifts from an happy occasion. After the wedding for Jack Mr. and Mrs. Murray left ray holds onville, Ill., where Mr. M. passenger the position of travelling R. R. agent of the Chicago & Sun. Co.—The Chicago Daily

## Damage by Lightning

The storm which passed over this section of the country yesterday afternoon was the most violent and destructive that has been known in this region. Telegraph and telephone poles were shattered by lightning, and reports in from all parts of damage done.

In Niagara township in particular the damage wrought was considerable. The barn of Mr. George Wilson, near Virgil, was destroyed by fire, together with the contents consisting of forty tons of hay, 300 bushels of wheat and a large number of agricultural implements.

The barn was owned by Mr. Wm. Rose of West Lorne, and was one of the largest and best barns in the township. The total loss is about \$3,000. No insurance.

The barn of Mr. Wm. Andrews, on the premises of Major Joseph Clement, was also destroyed by fire and the whole season's crop of wheat and hay was lost.

The barn of Mr. Ander of Virgil was also consumed by the flames, and the season's crop and every agricultural implement on the place, except one binder, was destroyed.

Several horses were killed by lightning. Mr. Robert Niven of Niagara township lost a valuable horse in this manner. A horse belonging to a farmer named Butler in the same township was also electrocuted.

Three employees of the Brown Bros. nursery, near Eppingham, Pitham township, were eating their lunches under a large tree, where they had taken shelter from the storm when the lightning struck the tree. One man was burned severely on the leg, and all three were more or less injured. One of them has completely recovered, the other two are in the hospital, and will recover.
